## Reviews of the Roger Loses His Marbles

Larosa

Received item had absolutely no connection with the one ordered, but the seller was very quick and kind in responding, and I was soon refunded the price+shipping costs. However, they did not offer to find the book I did want. Nothing helps the disappointment when you realize that the old childhood book you were so happy to find is not what you received, and you will not be receiving it all.

My 2-year-old son adores this story! I enjoy all the little "asides"--ballons of conversation added to the illustrations. Ms. Gretz has a way with both words and art. I highly recommend this book!
