Reviews of the *The President's Daughter* *by* Barbara Chase-Riboud

Rainshaper

I love a good mystery. this was a real good one. I had less than 76 pages left when I figured out who did the deed. the writer had

a lot of interesting facts about different things that kept you interested. she led you down the primrose path just to end it in a blackberry patch. she directed you then redirected and then did it again. great read. ps facts and location directions matched very well. I was raised in eastern virginia, maryland area. m

I thought this was a very good book. It caught my attention from the start and never let go. The plot was complex, but believable, the characters well developed and likeable. I cared what happened to them. Perhaps a little too much romance for my taste, but plenty of suspense and an unexpected finish. One glaring loose end, but overall I really liked it.

Yellow Judge

What an excellent book! It is a page turner. Has everything...a good plot, lots of action, intrigue and, of course, Sean Dillon. He is smart, fearless and a charmer. Good reading.

Sean Dillon is the best Secret Agent Great Britain has ever had! He has saved more more people, foiled more nefarious plots than 007 and Dillon's are all believable!

This was a good story and kept my interest. Primarily because I like political thrillers, which this was not. It was simplistic in places and some plot "holes," that slowed the reading because they should have been filled before the book was printed.

Some of the ancillary characters, like those who were close to the president, by behaving the way they were written make me almost leave the book. It was as if the writer was thinking in places, "Oh, they won't notice this..." Oh yeah!

The instant "romance" with the two major characters was unbelievable and missed the mark for what could have been some interesting tension. Because they were both likable throughout, it was enough to want to see what happened to them.

I had a lot of other minor quibbles, enough so that I'm unlikely to try another one from this author, except to read and excerpt, maybe.

Read in an afternoon . Never a dull moment , as you would expect with Sean Dillon along. Just the right combination of mystery and intrigue.

Xtreem

A very compelling story although a little bit PG-13. Had to remind myself many times that it was historical fiction because I got so drawn into it.

Good story, good characters, makes you want to read more about these characters. Root for Sean and the boys
