## **Pocket Guide to Familiar Species (A Pocket Naturalist Guide) by Waterford Press, Raymond Leung, James Kavanagh**

Anarus

I ordered books for our six grandchildren. I did not realize that this was a fold up list of wildflowers and trees. It does not show enough in the examples to identify easily and there is very little information about species. Illustrations are limited and information is limited to visual differences without much description. Small print is not easy to read.

I didn't really know what to expect when I ordered it. But it will be sufficient for my needs. Very nice and compact. Nice colors and descriptions.
